Profile

Experienced Network and IT Infrastructure Engineer with 8+ years of expertise in enterprise networking, systems administration, technical support, and IT operations. Holds a Master's degree in Applied Artificial Intelligence and international professional experience in Norway. Skilled in network design, deployment, troubleshooting, cloud services management (including Microsoft Azure & 365), cybersecurity, and IT service delivery. Proven track record coordinating IT infrastructure projects, collaborating with stakeholders/vendors, and delivering secure, scalable, high-availability IT solutions. Passionate about leveraging automation, AI, and emerging technologies to optimize and automate operations, strengthen cybersecurity posture, and drive digital transformation.

Education

2022 – 2024
Oslo, Norway

Master of Science in Applied ACIT- Applied Artificial Intelligence,
OSLO METROPOLITAN UNIVERSITY- OSLOMET

2011 – 2014
Dhaka, Bangladesh

Bachelor of Science in Electronics & Telecommuincations Engineering,
DAFFODIL INTERNATIONAL UNIVERSITY

Professional Experience

Aug 2024 – Jul 2025
Norway

L2 DESKTOP SUPPORT ENGINEER, *ALLIED WORLDWIDE LIMITED*

- **Technical Support & Customer Service:** Delivered prompt and professional IT support, resolving user issues efficiently.
- **Cloud & Device Management:** Handled cloud identities, system imaging, asset management, and mobile device management (MDM).
- **Software Support:** Installed, upgraded, and troubleshot Windows OS and Microsoft 365.
- **Hardware Maintenance:** Maintained and supported IT hardware like docking stations, printers, and peripherals.

Nov 2017 – Jul 2022
Bangladesh

ASSISTANT NETWORK ENGINEER,
INFO-SARKER PHASE-3 PROJECT, BANGLADESH COMPUTER COUNCIL

- **IP Network Configuration:** Designed and managed networks, especially BGP, OSPF, and VLAN.
- **Fiber Deployment & Surveys:** Oversaw optical fiber rollout using HDD and overhead techniques; conducted detailed site surveys.
- **System Testing:** Conducted Pre-Acceptance Testing (PAT) and Final Acceptance Testing (FAT).
- **DWDM & NMS Operations:** Ensured 24/7 uptime of DWDM optical fiber networks using E-site and NetECo.
- **IT System Administration:** Managed LAN infrastructure, video conferencing, software licensing, and access controls.
- **Reporting & Documentation:** Prepared detailed technical and progress reports for stakeholders.

Dec 2015 – Oct 2017
Bangladesh

SYSTEM ENGINEER, *AUGERE WIRELESS BROADBAND (BANGLADESH) LTD*

- **System & Infrastructure Management:** Monitored and maintained system performance and network infrastructure.
- **WiFi Solution Deployment:** Installed and configured WiFi access points (Ubiquiti, Altai, Cisco, ZTE).
- **Client Site Installations:** Deployed routers, switches, and IP cameras at client locations.
- **Network Device Configuration:** Configured routers, switches, firewalls, VPNs, and load balancers using BGP, OSPF, VLAN, ACL, etc.

Jan 2015 – Nov 2015
Bangladesh

JUNIOR ENGINEER, *GRAMBANGLA SYSTEMS LIMITED*

- **Network Planning & Implementation:** Designed and deployed IP networks (wired & wireless).
- **Device Configuration:** Configured Cisco, Huawei, and Mikrotik network devices.
- **Microwave Link Deployment:** Installed and maintained PTP and PMP microwave links using Motorola, Cambium, and Ubiquiti equipment.

Skills

Networking & Infrastructure

- **Network Devices:** Routers, Switches, Firewalls, Access Points, Docking Stations, Access Control, NVR
- **Infrastructure Deployment:** Fiber optic (DWDM, OTDR testing, HDD drilling), Microwave PtP/PtMP, WiFi rollout
- **Wireless Technologies:** Cisco, Ubiquiti UniFi, Altai Super WiFi
- **Monitoring Tools:** Nagios, Cacti, MRTG
- **Ticketing Tools:** ServiceNow, Jira
- **Site Surveys:** Wireless and fiber site surveys, feasibility and coverage analysis
- **Data Visualization & Reporting:** PowerBI, Excel, Matplotlib and Technical documentation
- **AV & Collaboration Technologies:**
  - **Hardware**: Polycom, Cisco Room Kits, Jabra devices
  - **Collaboration Software**: Zoom Rooms, Microsoft Teams Rooms

Programming & AI Development

- **Languages:** Python, C/C++
- **ML Frameworks:** TensorFlow, PyTorch
- **Libraries & Tools:** NumPy, Pandas, Matplotlib, Seaborn, Jupyter Notebooks
- **Machine Learning:** CNNs, GANs, RNNs
- **Version Control:** Git, GitHub

Certification & Professional Courses

- **Fortinet Training Institute: NSE 1** - Introduction to the Threat Landscape 3.0 (2026)
- **AI Fluency: Framework & Foundations** – Anthropic, UCC, & Ringling College of Art and Design (2026)
- **Huawei Certified ICT Associate (HCIA)**-Routing & Switching, Certificate No: 01010010187807626131413
- **Cisco Certified Network Associate (CCNA)**-ACADEMIC MODULE, CISCO Local Academy, Daffodil International University, Bangladesh
- **Oracle Cloud Infrastructure Foundations** 2020 Certified Associate, July 10, 2020
- **Linux 7 System & Network Administration**, CSL Training Center, Dhaka, Bangladesh
